

FitBuddy – AI Fitness Plan Generator

Version Control with Git

Reference: [Git Documentation](#)

Prerequisite Details

- Git can be used to track changes made to the FitBuddy source code.
- It helps maintain different versions of the application.
- Git is useful for restoring previous versions and collaborating on development.
- The project documentation identifies Git as a development prerequisite.

This PDF is based on the prerequisite section of the supplied FitBuddy project documentation. It does not add requirements that are not stated in that source.
